Transform Your Infrastructure with Dedicatted's AWS Accelerator

Transform Your Infrastructure with Dedicatted's AWS Accelerator

Leverage Dedicatted's AWS expertise to ensure your cloud infrastructure is optimized for your business—identify challenges, mitigate risks, and develop a roadmap for enhancing your AWS environment to meet industry standards.

Start with a **free 60-minute session** conducted by a AWS Cloud Architect and discuss plans and obstacles in the areas of reliability, scalability, security as well as cost and performance.

ENGAGEMENT PLAN

Free 60-Minute Session	Technical Discovery	Delivery
A meeting with key stakeholders to get an understanding of where you are today and what are your business and technology challenges.	**Current State Of The Platform** Monitoring & Observability — Automation & Tooling — Security & Compliance **Roadmap & Action Plan**	Dedicatted's engineering team works with your team to bring the cloud platform to a desired state, following AWS best practices.

DELIVERABLES

Identify key challenges & areas of focus
